SUMMARY

Python Backend Developer with hands-on experience building REST APIs using FastAPI and Django, designing PostgreSQL databases, and integrating React frontends with backend services. Reduced API response time by 25% and built a chatbot backend handling 1,000+ messages daily. Skilled in CRUD operations, JWT authentication, and Git-based version control. Seeking an entry-level backend role to build scalable, production-ready web applications.

EXPERIENCE

Python Developer Intern — Cognifyz Technologies

09/2025 – 10/2025

- Developed Python scripts to automate data-handling tasks, reducing manual processing effort.
- Implemented and debugged core API logic for backend services.
- Refactored code into modular, reusable functions, improving maintainability and reducing bugs.

PROJECTS

Chatbot Application (React.js, FastAPI, PostgreSQL)

- Built REST APIs with FastAPI to handle real-time chatbot messaging, supporting 1,000+ messages/day.
- Designed and optimized a PostgreSQL schema, improving CRUD operation efficiency.
- Integrated React frontend with backend via Axios, increasing app performance by 30%.

Job Portal Application (React.js, Django, PostgreSQL)

- Built a full-stack job portal supporting students, companies, and admin roles.
- Implemented JWT authentication, job posting management, and application tracking.
- Integrated React.js frontend with Django REST APIs and PostgreSQL backend.

EDUCATION

Master of Computer Applications — Bharath University, Tambaram

2025 – Present

B.Sc. Computer Science (79.2%) — Bharathidasan University, Trichy

2022 – 2025

CERTIFICATIONS

Python Fullstack Developer — Login360 Institute, Velachery

SKILLS

Languages: Python, JavaScript

Frameworks: Django, FastAPI

API: REST API Development

Database: PostgreSQL

Tools: Git, GitHub, Postman

Frontend: HTML, CSS, React.js

Other: CRUD Operations, MVC Architecture, JWT Authentication, Debugging
